Club Name

Winston-Salem Radio Control Club (WSRC)

Background

The Academy of Model Aeronautics (AMA) is the national sanctioning and insuring body for model aviation. WSRC is an AMA recognized club (#1180). All club members are required to be AMA members because membership brings $2.5 million of liability insurance. The AMA also provides insurance for sanctioned events, of which WSRC hosts 6-8 per year.

WSRC celebrated its 60th anniversary in 2023. It has been at its current location for 30 years. It is recognized as an AMA Gold Leader Club, the highest distinction awarded to a club. This recognition means the club actively promotes the radio control hobby and is also active in community service. WSRC established a scholarship in Davie County for high school graduates, regularly donates to food banks and back-to-school drives, directly and with Forsyth County Police Community Outreach.

Field Parameters

WSRC is looking for land with the following characteristics. These are minimum needs, more is aways better.

- A flat grass runway 700' long and 100' wide
- Runway orientation is not important
- Enough area to allow for ¼ mile overflight off the ends of the runway and ¼ mile to the "flying" side.

To the non-flying side of the runway

- An aircraft taxi "buffer" area of 50'
- Land for parking of member vehicles
- Land to support (2) shade pavilions 40' long and 12' wide each
- Land to support a clubhouse 20' long and 10' wide
- NICE TO HAVE – electricity available

Budget

WSRC has been paying $2000/year to lease the current property. The lease amount is negotiable.
